### **Larkspur Nonprofit Schurig Center for Brain Injury Recovery Adds New Board of Directors Member Lawrence Strick**

(Larkspur, CA) Schurig Center for Brain Injury Recovery (“Schurig Center”) is pleased to announce that Lawrence Strick, resident of Mill Valley, has joined its Board of Directors. Mr. Strick is a principle at Strick Schnasse Lawyers, representing plaintiffs in personal injury cases in the San Francisco Bay Area. He is a graduate of the University of San Francisco School of Law, and brings with him previous non-profit Board experience with Marin Interfaith Council, Community Media Center of Marin, and the Marin County Bar Association. Mr. Strick is excited to apply his talents as an ambassador for Schurig Center to support the organization’s fundraising efforts as well as acting as an advocate for brain injury survivors and their families.

“As a trial attorney, Larry Strick has represented people who have also been clients of Schurig Center for Brain Injury Recovery. His understanding of the challenges brain injury survivors and their families face, his role as former Marin County Bar Association President, and his non-profit experience make him a most welcome and knowledgeable addition to the Schurig Center Board of Directors,” says Kim Strub, Schurig Center Board President.

#### **About Schurig Center for Brain Injury Recovery**

Founded in 1985, Schurig Center for Brain Injury Recovery is a nonprofit offering an array of services designed specifically to help brain injury, concussion, and stroke survivors and their families live fully, meaningfully, and happily. We pick up where the healthcare system leaves off by providing a place where survivors and caregivers can gather for continued rehabilitation, education, and support from brain injury experts and others who understand. Brain injury is a pause button. Schurig Center helps Bay Area survivors and their families press ‘play’ again. (SchurigCenter.org)
